NATURAL WELLNESS CENTER

The NWC Concept

According to Ayurveda, the universe is made up of **Pancha Maha Bhutas** or 5 Great Elements:

(Prithvi) earth,

(Jal) water,

(agni) fire,

(vayu) air

and (akash) space.

These elements in combination give rise to three main biological forces or Tridoshas:

Vata (air and space)

Pitta (fire and water)

and Kapha (earth and water).

These forces govern all psycho-physiological functions in the body and mind respectively. They create and construct each individual, serving to maintain it in a dynamic state of health.

THE DESIGN & JOURNEY

The NWC design is based on the Panchamaha Bhuta concept. Our exclusive range of **five signature essential treatment and blended massage oils** has been developed by Kisawa's Head of Wellbeing, Dr Jay Kapparrath in collaboration with certified organic therapeutic oil specialists in Thailand.

NWC daily rituals are designed to **heal mind, body and soul** all carefully programmed to allow guests to reconnect to the natural environment.

A visit to the NWC is a journey through the senses.
